

Berman Printing Tops Largest Commercial Printer List

CINCINNATI, OH (November 3, 2009) — Berman Printing has been recognized as one of the area's leading print providers, topping the *Cincinnati Business Courier's* "Largest Tri-State Commercial Printers" list. Issued annually, the ranking spans all private printing enterprises across Ohio, Kentucky, and Indiana. Over the years, Berman has steadily climbed the chart, taking the number-one spot with the October 2009 list release.

Of the 21 companies named, Berman Printing was one of the few to report revenue growth. "Our diversification has been key to our stability and ongoing success," said Bill Pearson, President. "Customers count on us as a full-service partner in their marketing and print programs—one that saves them time, money, and hassle at every point in the value chain."

With services spanning offset print in up to 10 colors, color digital print, dimensional packaging, mailing and fulfillment, Berman Printing offers more capabilities than other regional sheetfed providers. The company also leads the area with cutting-edge sustainability initiatives and accreditations that enable clients to meet their own sustainability objectives and purchasing mandates.

As part of the TouchPoint Print Solutions network, Berman offers customers an integrated approach to conventional print as well as digital print, fulfillment, and marketing services. "Our end-to-end solutions in literature management, direct mail, e-business, dimensional packaging, and commercial printing are what makes us most valuable to our customers, including some of the most recognized brands in the world." added Bill Tucker, Executive Vice President of Sales.

Berman Printing is a highly awarded, 130-person enterprise based in Cincinnati, Ohio. The company will celebrate its 75th year in business in 2010. TouchPoint Print Solutions is headquartered in Chicago and employs more than 600 in production facilities across six states.
